"No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns. This does not mean you should have a whole, half or even a quarter page ad in each issue of the paper, but your name and business should be mentioned if you do not use more than a 2 line space. A stranger picking up a newspaper should be able to tell what business is represented in town by looking at its paper — it's the best possible town advertiser. The man who does not advertise his business does an injustice to himself and the town. The man who insists on sharing the business that comes to town, but refuses to advertise his own in the newspaper is not a valuable addition to any town. The life of a town depends on the live wide-awake and liberal advertising business men."

Mayor To Get A Free Ride . . .

In a competition between Didsbury and Olds, as to which centre would gain the largest number of blood donors at last week's clinics, "our town" came out on top. This means that the trophy, won last year by our northern suburb, will be returned to its rightful spot; it also means that the mayor of Olds will be the chauffeur when our mayor gets a wheelbarrow ride in "our town." The losing mayor actually gets the best of the deal in this case; he'll be pushing the barrow on hard-surfaced roads.

Voting Action On The Horizon . . .

It was announced last week that two important plebiscites are coming in the near future in this area. Early in December eligible voters will cast ballots on the huge expansion program proposed by the Olds School Division; a few weeks later hail suppression plebiscites will be presented to those concerned. There'll be plenty of chit-chat back and forth before either vote takes place — all we can suggest is that you check both sides of these issues very closely; don't use a second-hand opinion when you cast your ballot; just make sure you drop one in the bucket with your own honest convictions.

We Can't Knock 'Em This Time . . .

This time around we must make a switch and pass out our condolences to the Olds Elks hockey club and the many fans in that area who will be deprived of their favorite winter sport this year. A last-minute decision put the padlocks on the doors of the arena. It was condemned by inspectors as unsafe and until such time as the necessary repairs are made, it will remain closed. We do think the inspection could have been made much sooner, which would have made it possible for the necessary repairs to be made in time for the skating and hockey season (somebody goofed in this respect). However, all is not lost — ardent hockey fans can still travel the extra few miles to "our town" and watch the Ramblers, champions of the Chinook League last season, perform against the other fine teams in the loop.

So True, So Very, Very True . . .

Just another famous quote: "Guess we'll have to buy a new TV set. We seem to have seen everything on the old one at least twice!"

Letter To The Editor

Editor, Didsbury Pioneer,

Dear Sir:
Proprietary electors of the Olds School Division will vote on Dec. 8th on the question of borrowing money by debenture to allow the board of trustees to build classrooms and other rooms at several centres in the division. It is the belief of the Board of Trustees that these projects are urgently needed.

Need at Cremona: Eleven of the classrooms in use in Sundre are very much sub-standard. Seven of those in use are one-room rural schools brought into the town to serve temporarily. Two classes are being taught in the gymnasium. Two other classrooms are very small. The home economics room and the shop room are far from adequate, as is the gymnasium for this size of school.

Proposal: A 12-classroom school with laboratory, home economics room, and library, and a full size gymnasium. The present gymnasium is to serve as a shop.

Need at Cremona: Four classrooms discarded with the opening of the new building last September are in use again this year. One of these is a basement room, one a rural school brought in as temporary housing, and the two remaining are sub-standard. Enrolments in the primary grades are very much on the increase. There is no typing room or library, and the laboratory is used regularly as a classroom.

Proposal: A four-classroom addition to the new building.

Need at Didsbury: Two classes are conducted in rural schools brought in to serve as temporary accommodation. The laboratory and the library room in the main building are used as regular classrooms.

Proposal: An addition to the new building of four classrooms.

Carstairs: Three rooms in use as classrooms are definitely sub-standard, two being basement rooms, and one above the furnace being too small and improperly ventilated. The school lacks a library, an adequate laboratory, and a typing room. The shop is far too small for the size of classes to be accommodated.

Proposal: An addition of eight classrooms and a shop room.

Olds: Several of the many rural districts surrounding Olds have asked for centralization. The buildings in the Town of Olds, even with the addition now underway by the District Board, will handle only the pupils now in attendance. Some 150 pupils are in rural one-room schools and could be centralized in Olds.

Proposal: The Board has plans prepared for a 12-room school with gymnasium.

The Board of Trustees of the Olds School Division feel that its program is one of necessity, in some cases extreme necessity. Large numbers of our pupils are in very unsatisfactory classrooms. They solicit your support in the forthcoming plebiscite.

THOMAS MORRIS,
Chairman, Board of Trustees,
Olds School Division, No. 31

RATS ON THE MOVE: Once again Norway rats are building up heavy pressure along Alberta's eastern boundary. The natural direction for their migration is westward. Back pressure from killing in areas of heavy invasion often results in the rats spilling around the edges into places where they are least suspected. Sometimes the entire spearhead veers off and pressures weaker points along the line.

We are warned by Department of Agriculture officials to keep a sharp lookout for rats as colder weather approaches. To date we have been fortunate in this central and western area of Alberta in not having to deal with rats, but nonetheless we dare not reduce our vigilance.

For nearly eight years Alberta has been able to "stem the tide" and hold the line of invasion to a narrow margin along the eastern border of the province.

Any suspicion of rats should be reported to the District Agriculturalist, or myself. Often these reports may turn out to be juvenile muskrats or, as in one case, it turned out to be a mink. However, it is better to be sure even though the suspect may not be a genuine Norway rat.

Approved and efficient poisons are available, free of charge, to deal with rats.

TV'S CONTEMPT OF THE PUBLIC

Voltaire once quipped that the secret of the successful bore was to say everything twice. In the case of TV, it is an apt pupil in this regard. For the past several months it has been repeating shows with brazen regularity. The idea no doubt was planted in the minds of the TV moguls by the traditional practice of repeating performances of exceptional merit in response to public demand.

Nowadays, however, the masterminds of TV can tell you what the public wants — or ought to want — before the public knows itself. The "repeats" unfortunately are from the job lots of filmed tripe provided by the movie producers and distributors to fill the insatiable maw of the television monster. The package system, under which TV stations buy assortments of movie fare at special rates, provides the incentive.

These grab-bag lots of "entertainment" are cheap to start with; westerns mainly, plus who-dun-its and horror drama. Repeated, they come at bargain-basement prices.

They are all atrociously bad, as viewers can attest. To repeat them represents an utter contempt for public intelligence, plus the notion that no dodge is too cheap or insipid for the viewing public.

This was the idea pattern that put radio into mothballs. It will be remembered that the initial promise of TV was enough to cast a pall over the once shining spirit of radio, who have been practising self-destruction by inanities for a number of years before TV's advent. But TV never came near to filling the expectations it aroused.

It now looks as though TV will fail to make even as much of a cultural, educational, or social impact as radio did when it was young. In fact, TV has gathered unto itself all the looniest ideas of radio and the movies, and now appears to be trying to commit a form of double hari-kari.

Notes From D.A.

District Agriculturist
By HOWARD FULCHER

Many people buy seed in the
forage crops just by the kind,
rather than by the variety. There
is quite a difference between dif-
ferent varieties of alfalfa and
sweet clover; this also exists in
many of the other crops; that is
legumes and grasses.

Some of the varieties are quite
common knowledge, such as Grimm
and Ladak alfalfa. In the alfalfas
there does not seem to be any par-
ticular variety which will not cause
blast dangers. In sweet clover we
are familiar with the white and
yellow; these however are again
divided in varieties. In some cases
sweet clover is used for hay; in
some cases strictly as a green man-
ure crop.

Where one has ample growth,
the Erector variety does very well;
where there is not too much growth,
Arctic will give a higher yield.
Either of these varieties are satis-
factory as a green manure crop
when turned into the land just as
they begin flowering.

Following is a list of some vari-
eties and a few comments on each
which have been released from the
Experimental Farm at Lethbridge.
ALFALFA:
Grimm: high yielding, winter
hardy variety but very susceptible
to bacterial wilt. Should be used
where alfalfa will not be kept down
longer than three years.

Ladak: Also high yielding and
about equal to Grimm in hardiness,
more drought resistant and has
some resistance to bacterial wilt. It
produces good yields for at least 4
years.

Vernal: Is about equal to Grimm
and Ladak in hardiness and has
considerable resistance to bacterial
wilt. This variety is recommended
where alfalfa is to be left down for
long periods.

Rambler: This is a new creeping-
rooted variety intended for seeding
with grass as a pasture alfalfa, par-
ticularly in non irrigated areas. It
has considerable resistance.

SWEET CLOVER:
Arctic: White blossomed, tall
growing, drought resistant and high
yielding.

Alpha: White blossomed, fine
stemmed, drought resistant, and
recommended where harvesting of
tall growing sweet clover is a
problem.

Brandon Dwarf: Very similar to
Alpha, both in appearance and
growth habit.

Erector: Yellow blossomed, tall
growing and drought resistant var-
iety. It is not as tall as Arctic but
a big improvement over the low-
growing types of yellow sweet
clover.

CHRISTIAN SCIENCE

Recognition of man's true nature
as God's spiritual image and like-
ness is a central theme of the
Lesson-Sermon entitled "Soul and
Body", which will be heard in
Christian Science Services Sunday.

From the King James Version of
the Bible will be read the following
(II Corinthians 5:1): "For we
know that if our earthly house of
this tabernacle were dissolved, we
have a building of God, an house
not made with, eternal in the
Heavens."

Also bringing out man's spiritual
nature is this passage to be read
from "Science and Health with Key
to the Scriptures" by Mary Baker
Eddy:

"Rightly understood, instead of
possessing a sentient material form,
man has a senseless body; and
God, the Soul of man and of all
existence, being perpetual in His
own individuality, harmony, and
immortality, imparts and perpetu-
ates those qualities in man —
through Mind, not matter (280:
25/30).

By HELEN HOWARD
District Home Economist

Dear Homemakers:

The calendar, radio and press
serve as constant reminders that
Christmas is over a month away.
The majority of homemakers will
be in the process of preparing
Christmas Cakes and here are a few
tips of general interest:

If a cake has a tendency to burn
even though paper is used, place
the cake tin on a cookie sheet
that has been lined with a layer
of salt.

Another good idea is to place a
flat pan containing two cups of
water in the bottom of the oven.
The moisture available from this
water will help to make the cake
lighter and more moist, and to
give it a slightly glazed appear-
ance.

The aging of fruit cake seems
to create a mellow flavor which no
cook, no matter how skillful, can
imitate. The richer the cake is
in fruits, the longer will be the
time required for its ripening.

Fruit cake crumbles when the
fruits and peels are too dry. If
raisins and currants seem dry and
wrinkled, either leave them in
soaking water for five minutes and
drain, or simmer the fruit in a
little sugar syrup (1 to 2) until the
syrup almost disappears. In either
case drain and dry the fruit slightly
before using.

Fruit cake should be stored in a
closely covered container. A scoop
of brown sugar or a piece of apple
in the container will help to keep
it moist.

Mold may appear when the
mixed chopped peel, sold in pack-
ages, is used. When this is used
to replace the traditional lemon
and citron peels, either add a
little syrup and hold in a slow
oven (275 deg. F.) until surface is
dry, or boil the peel in syrup, as
suggested for the raisins.

Adding chocolate, strong coffee
or grape jelly, darkens the cake,
whereas, reducing the amount of
spices or adding crushed pineapple
lightens the color of a cake.

Yuletide Fruit Cake:
4 cups seedless raisins
1 cup seeded raisins
1 cup fresh dates
2 cups prunes
2 cups halved candied cherries
2 cups diced candied pineapple
2 cups sliced citron
2 cups sliced orange peel
2 tsp. allspice
2 tsp. cinnamon
1 tsp. cloves
1 cup apricot nectar
3 cups butter
1 cup brown sugar, packed
2 cups granulated sugar
10 eggs
4 1/4 cups all-purpose flour
4 tsp. soda
1 tsp. salt
1 tsp. baking powder
1 1/2 cups coarsely chopped
almonds
1 1/2 cups coarsely chopped
walnuts
2 tbsp. rum flavoring

Rinse raisins, drain, dry thor-
oughly. Chop seeded raisins. Pit
and slice dates. Pour boiling water
over prunes. Cover and let stand
10 minutes. Drain, dry and cut
from pits in small pieces. Combine
fruits, peel, citron, spices and nec-
tar.

Cover. Stand one hour.
Cream butter, add sugars and
cream together thoroughly. Mix
in well-beaten eggs. Add flour
sifted with soda, salt and baking
powder, mixing thoroughly. Stir in
fruits, almonds, walnuts and flavo-
rings. Mix until fruits are well
established.

Put into two tube pans (9 1/2")
that have been lined with two
thicknesses of greased brown paper
and one of greased wax paper.
Bake at 350 deg. F. about 3 1/2
hours. Makes 9 pounds.

Note: Can make early and wrap
in brandy soaked cloth, then in
aluminum foil to ripen.

Next Week: Light Fruit Cake
Recipes.

Imperial's 78 years of leadership has helped
Canadians take for granted the reliability of
oil and oil products

Reliability implies an adequate supply of the products
you depend upon . . . when and where you need them,
at reasonable prices.

Imperial has always been the leader in ensuring
Canadians of an adequate supply of oil. Imperial's
discovery of oil at Leduc, in 1947, opened the vast
western oil fields.

The first oil company to supply consumer needs in all
Canada's provinces, Imperial has nine refineries from
Halifax to Vancouver (and in the Northwest Territories)
to meet the local needs of Canadians.

Imperial has always been the leader, too, in a highly
competitive industry which must seek . . . by broadening
markets and increasing efficiency . . . to keep prices
down. Over the past ten years, while prices of things
in general have risen 134%, regular gasoline has gone
up only 11%.

Farmers' Union Gain Members . . .

The staff of F.U.A. headquarters in Edmonton are being swamped with membership applications as a result of the canvass held during National Farm Union Week, which was held November 3rd to 8th.

Favored by unusually mild weather, for the time of year, and backed by a record turnout of canvassers, the drive was held under near ideal conditions. To date the membership is more than doubled in comparison with the corresponding date last year.

While it will probably be several weeks before anything like final results can be announced, its success is already apparent, indicating the possibility of achieving an overall majority of Alberta farm families as members in the F.U.A.

Midway News

(From Our Own Correspondent)

A pie social to get funds for the school Christmas tree treats will be held on Friday evening.

The grade nine June graduates of Midway school were honored Wednesday evening, Nov. 12th, at the Lone Pine hall. Mr. R. Schellings was master of ceremonies. The honored guests included Mary Leowen, Audrey Swanson, Marlene Chappel, Philip Kraakamp, Robert Marsh, Jim Good and Douglas Brander. Each received a gift.

The program consisted of a chorus by the grade six class and plays by grades 7, 8 and 9. Mrs. E. Charlton is to be congratulated on the excellent performance of the students.

We are very pleased to see the new home of Mr. and Mrs. Henry Brown near completion (from an outside view), before the snow came.

WEDDINGS

CULVER — NESS

A wedding of wide interest to their many friends was solemnized at the Bergen United Missionary church at Bergen on Friday, Nov. 14th, when Darlene Vydelle Ness became the bride of Robert Barry Culver. Rev. K. Wood officiated for the daughter of Mr. and Mrs. Joe Ness of Bergen and the daughter of Mr. and Mrs. Joe Ness of Bergen and the son of Mrs. Gladys Culver of Ft. Assiniboine, Alberta.

Given in marriage by her father, the bride was radiant in a full length bridal gown fashioned with bouffant skirt of nylon lace and tulle over satin and crinoline. The lace bodice featured a bateau neckline embroidered with pearl tone sequins and seed pearls, with lily point sleeves. Her fingertip veil misted from a tiara encrusted with sequins and pearls matching those of her dress. She carried a cascade arrangement of red roses and white ribbon streamers.

Bridal attendants were Miss Cora Schmidt and Miss Darlene Phillips, who chose waist-length gowns of pink and blue respectively. Both were fashioned of nylon lace over taffeta, with bolero jacket, and complemented by matching headbands. Each carried a colonial nosegay of pink rosebuds and baby's breath. Little Lynda Skene made a charming flower girl in yellow embroidered nylon, and carried a basket of mixed flowers.

The groom was attended by his brother Garry Culver, and the bride's brother, Royden Ness. Guests were ushered to their places by Jack Davidson and Vern Connor. The wedding music was played by the bride's cousin, Mrs. Grace Duff. Mrs. Trevor Morgan accompanied Mrs. Duff while she sang "A Wedding Prayer" immediately following the marriage vows and "I Love You Truly" during the signing of the register.

For the daughter's wedding Mrs. Ness chose a teal blue sheath dress complemented by white hat and gloves. Mrs. Culver wore a light charcoal suit with rose hat and gloves. Both wore a corsage of pink carnations.

A reception was held for approximately seventy guests at the Legion Hall in Sundre. The bride's table was centered by a three-tiered wedding cake, flanked by white tapers and bouquets of mixed flowers. Miss Barbara Ness, sister of the bride attended the Guest book.

Rev. Wood was the toastmaster. Before the bridal toast, which was proposed by Mr. Earl Grace to which the groom also responded. Mrs. T. Morgan and Mrs. G. Duff favored the guests with solos. Before cutting the cake, the bride presented her bouquet to her grandmother Mrs. Osborne of Calgary.

For travelling the bride chose a wool dress of winter white; teal green top coat and black accessories. Her corsage was of red roses. After a short honeymoon trip to Southern Alberta points, the happy couple will reside at Ft. Macleod.

A cheque for five dollars was sent to the mental health campaign and Woods Christian home. Mrs. Jean Shields gave the short topic on objects our children can and will swallow. Mrs. Phillips report on education in Russia, read by Mrs. Chandler, was very interesting.

Mrs. Chandler won first prize for bread; Mrs. H. Fischer for canned chicken and Mrs. L. Fischer for jam.

Election of officers will also be held at the next meeting.

WESTCOTT JUNIOR W.I. PLAN FAMILY SUPPER

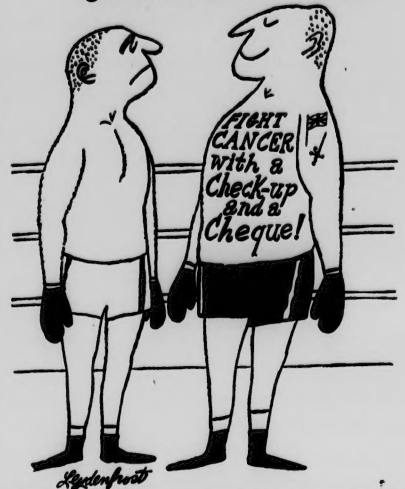

The November Junior W.I. meeting was held at the home of Mrs. W. Weidner, with 16 members and 16 visitors present. After a short business meeting it was decided to have a family supper on November 28th.

More articles were handed in for the bazaar, which was held on Nov. 14.

M.V.B.C. NEWS

(From Our Own Correspondent)

Rev. Gordon Bacon of Indiana who is the evangelist in the United Missionary Church is a guest of the college while he is here. Each morning this week he speaks in chapel at 11:05. Mr. Bacon is pastor of a large church in Elkhart, Indiana, and Edward Oke whom we all know is his assistant pastor while he attends Goshen Seminary. You will want to hear Mr. Bacon as he speaks in the church each evening at 8 p.m. this week except Saturday night.

Miss Dorothy Thompson of Canadian Nazareth College was a guest of Rev. and Mrs. Auburn Witt on Sunday.

Arthur Eby has been able to install an extra boiler during these last few days. It is almost complete now and will add much to the successful heating of the college during the winter months. The new addition of the Students Centre has made further provisions for heating necessary.

Mrs. Lydia Suder entertained Rev. Bacon, Rev. and Mrs. Witt and Mrs. Florence Finlay at dinner on Saturday evening.

Mr. and Mrs. Harley Dyck, graduates of the college, visited Miss Eby Sunday evening after service for a short while. They are now pastors at Bergen and are busy becoming acquainted with the people of that community. Harley graduated from Elkhart College in Indiana last spring with the degree of Bachelor of Arts. We are glad to have him back in the Conference.

The sympathy of the college is extended to the Archer family upon the loss of their father last week. Mr. Archer was a staunch supporter of the College and we appreciated his interest each year as he made his contribution. He will be missed by his many friends.

Classics have been curtailed somewhat during this week so that the students may have the privilege of longer chapels. The teachers are withholding lengthy assignments as well, for the students do want to put their best in time and effort into the meetings held in the church. Our young people are taking a very active part in the services, and are practicing a great deal of singing, as well as some visitation. We have some splendid trios, quartettes as well as solos. You will want to hear them each evening. If you have not come to the services yet, be sure to do so. They will continue until Thursday, November 27th.

LIGHT YOUR WAY . . .

... WITH BIBLE STUDY

Two questions that often disturb men are these: How many does God desire to save? and Why are not all saved?

Allow God to give you the answer to the first question. In the Old Testament God spoke: "As I live, saith the Lord God, I have no pleasure in the death of the wicked; but that the wicked turn from his way, live." In the New Testament, He said: "The Lord is not willing that any should perish, but that all should come to repentance." We can sum this up in another clear-cut passage: "God will have all men to be saved and to come to the knowledge of truth." Jesus died for all. Salvation is for all. Through the work of the Holy Spirit, God offers it to all.

And thus, the second question: Why are not all men saved? A sick man goes to the doctor. There he receives some medicine. But if he refuses to take it, whose fault is it? Or a man lost in the woods. The guide finds him and offers to lead him out. But if the man refuses to follow the guide, who is to blame? Thus only the Holy Ghost offers salvation to everyone that

hears the Gospel. But, let us remember, He does not force it upon anyone. If you then resist, stubbornly resist, his ministrations are thus lost; remember, it is through your own fault.

"Ye stiff-necked and uncircumcised in heart and ears, ye do always resist the Holy Ghost, as your fathers did, so do ye."

So, then, from beginning to end, man's salvation is due to the work of the Spirit. If saved, it is by the gracious work of the Holy Ghost. And God wants to save all. If lost, it is by your own fault. No, my friend, you will not be able to blame God, if on that last Day you are cast away from Him. May we then make this plea: come to your Lord and saviour now, so that you may be with Him to all eternity hereafter.

ARE YOU BEING ROBBED BY A PROFIT STEALER?

It's an old story . . . but proof-positive—year-old tractors, in some cases, are robbing their owners blind.

Authoritative tests, conducted by impartial engineers at the University of Nebraska, proved every tractor loses power during a year's work on the farm. Furthermore, some tractors lose as much as 20 per cent in power. And in most cases, their farmer-owners were not aware of this power loss. Such loss means more hours to do the same job . . . not to mention extra gallons of fuel wasted.

The skilled mechanics in our shop can rejuvenate your tractor quickly . . . efficiently; they'll do only the work that's necessary; do it quickly . . . with a minimum of delay . . . at the lowest possible cost. Why throw away those profits? Come in this week and let's talk over your service needs!

On Saturday evening about 30 neighbors and friends surprised Mr. and Mrs. Mose Dippel by a house warming at their new home in town.

The evening was spent with games and visiting.

Mrs. Ben Hipkin with a few well chosen words presented a gift from the group, for which Mr. and Mrs. Dippel graciously thanked those present. After a delicious lunch served by the ladies, the group departed for their homes very glad to still have the Dippel family still within visiting distance.
